***15 Year and over warranties require the use of 4" Seam Tape.**

****20 Year or higher warranties require the use of 060 mil membrane and the double seam detail with the 105 System or the Solid Glue Down System.**

All prices are subject to change at International Diamond Systems discretion with no advance notice.

All warranties require completion of the request for warranty form prior to beginning the job.

All warranties only cover IDS products.

All IDS specifications must be followed and certified by the Building Owner and/or his agent. Any deviations will null and void your warranty.

These limited warranties are good for up to 55 mph winds. Higher wind speed warranties are available.

INSPECTION/RE-INSPECTION

IDS Systems must be inspected prior to the issuance of the warranty. A re-inspection may be required to verify any changes or corrections on items which did not meet IDS specifications upon the original inspection. All re-inspections are subject to IDS charges and expenses.
